

## FIRST GUN PLAY IN IDAHO TRIAL IS THE FEATURE

A DEPUTY SHERIFF GETS INTO  
AN ARGUMENT WITH A  
PRINTER.

AND USES HIS REVOLVER

Police Are Anxious to Avoid Trouble  
—City is Filling Up With the  
Witnesses.

Boise, Idaho, May 23.—The first gun play since the trial began was on the part of Bob Meldrum, a deputy sheriff from Telluride and the personal body guard of General Bulkeley Wells. Meldrum is known as a fighter. He met Whims, a printer, on the street, and became involved in a discussion of the case. A fight followed, Whims getting the better of it when Meldrum drew a gun and beat Whims over the head, knocking him unconscious. The chief of police and the mayor heard of the encounter and sent word to Meldrum that if he gets into any more fights he will be run out of town and compelled to walk to the next station to get a train home.

With the city filling up with witnesses who are very bitter toward each other the danger of serious trouble becomes possible. Police have been instructed that if there is any outbreak to use stern measures to quell it. Police Chief Francis has detailed men to mingle with the crowds and watch men supposed to carry guns. If any weapons are found they are to be confiscated and the owners fined.

## RESUME HAYWOOD TRIAL

Boise, May 23.—The trial of Haywood was resumed this afternoon and attorneys expect to get a jury out of the new venire. If successful the taking of testimony will begin next week.

### Round Up of Talesmen.

Boise, Idaho, May 23.—By the use of train, stage and horse and some active hustling, Sheriff Shad Hough and his deputies managed to round up a majority of the fifty men included in the special venire issued in the Steuenerberg murder case, and they are now all expected to be on hand when the trial is resumed this afternoon. It has been decided that James H. Hawley, senior counsel for the state, will make the opening statement. It has not yet been decided by the state to call Steve Adams as a witness.

## THOMAS REAGAN'S SKULL FRACTURED

B. & O. EMPLOYE MEETS WITH A  
SERIOUS ACCIDENT WHILE  
AT WORK.

Was Knocked From Car by End of  
Steam Hose, Which Was  
Broken.

Thomas Reagan, aged 3 years, a bridge contractor by trade, but recently an employee of the B. and O. company on its improvements between Newark and Columbus, was dangerously injured in a peculiar manner Wednesday afternoon just west of the city.

Reagan was helping on the "unloading" machine, which was being used in making a fill where the third track of the B. and O. company is to be put down. The machinery is operated by steam from the locomotive which pulls the train and the connection is made through a rubber hose connected at the car carrying the machine. While Reagan was at work near the machine, the locomotive started, breaking up the steam connection. An end of the hose flew around and struck Reagan just above the right ear, causing a fracture of the skull. He was rendered unconscious by the blow and was hurried to Newark and taken to the Sanitarium where his injuries received attention. It is thought that he will recover.

Reagan boards in this city but his people live in Indiana. He has an other brother in this city.

### Poss Surrounds Swamp.

Reidsville, Ga., May 23.—A posse surrounded a swamp in which is hiding Flem Padgett, the negro whose attempted assault on Mrs. Laura Moore near here, resulted in the lynching of two negroes, the death of three other persons and the injury of seven others. The wife of Sim Padgett, one of the slain negroes, confessed that after the withdrawal of the posse that attacked Padgett's cabin, she had killed John Hare, a member of the posse, who had been shot down in the attack.

growing city and is known as a hard worker in any line that he undertakes. He is a heavy stockholder in some of our local enterprises, beside having investments elsewhere. Like most all live ones he affects a fad and the doctor's fad is bloodhounds, and his kennel is noted all over the country for the excellence of the stock, the dogs having great records as trailers. The kennel is one of the prize winners wherever shown. The doctor is a great mixer, both professionally and socially, and is an active member of the Elks.

## THE PRESIDENT INJURES CHANCES OF SECRETARY TAFT

In the Opinion of Congressman Dalzell of Pennsylvania Expressed in New Orleans.

The following is a special to the Pittsburg Dispatch concerning the Taft Presidential boom:

New Orleans, May 23.—Congressman John Dalzell of Pennsylvania, in an interview here today, said he did not agree with the general prevailing opinion that the strong backing of Taft by President Roosevelt gave him an overwhelming advantage over his opponents.

"Personally, I am a strong admirer of our President," declared Mr. Dalzell, "but like many others I think he is going somewhat out of his proper sphere in attempting to name the Republican nominee. I believe that his effort in this direction with regard to Taft is doing the latter more harm than good. Should the President have supported the Secretary of War in the proper manner and not attempt to silence all persons who mentioned anyone else for the place, his endorsement of Taft or of any other aspirant for the place would no doubt be of great advantage. Mr. Roosevelt has simply overdone the thing."

## BEGAN LIFE

AS BLACKSMITH, MAY BECOME  
PRESIDENT OF THE STEEL  
TRUST.

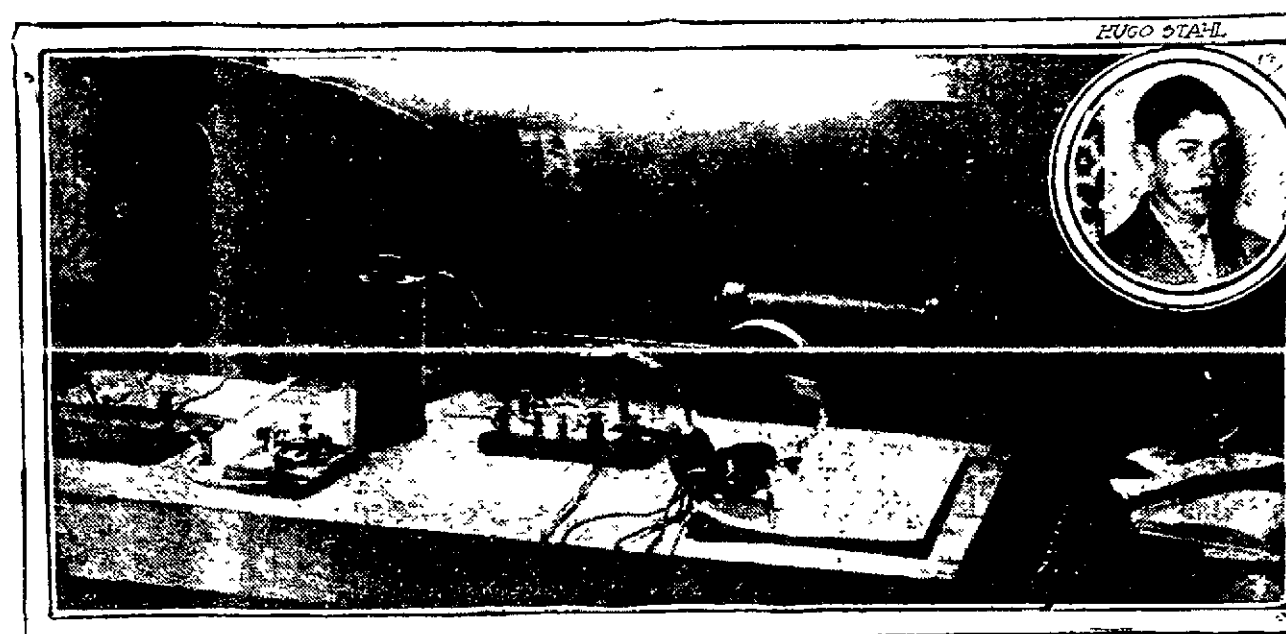

William E. Corey's Resignation is in  
the Hands of the Board of  
Directors.

Chicago, May 23.—E. J. Buffington will, it is said, succeed William Ellis Corey as president of the United States Steel corporation, the most stupendous financial organization in all the world. Mr. Corey's resignation is in the hands of the directors of the company and it will be acted upon during the month of June. Mr. Buffington is one of the greatest authorities on steel in America. He began as a blacksmith. It was his mind that conceived the idea of creating the city of Gary, Ind. He went to New York with the scheme two years ago. Meantime he had quietly gone about securing on more than 2,500 acres of land near the extreme southern limits of Lake Michigan, an hour's ride from Chicago. Gary is now a city of 5,000.

Edward Manning, 60, proprietor of a restaurant at Portland, Mich., was murdered while on his way home from his establishment. Robbery the motive.

George Henry Finch, known as the "Father of the House of Commons," having represented Rutland in the house for 40 years, died at his home in London.

## BOY'S WIRELESS SYSTEM TANGLES THE NAVY.

HUGO STAHL'S WIRELESS TELEGRAPHY INSTRUMENTS

Washington, D. C., May 23.—By courtesy—simply by courtesy of a sixteen-year-old boy—the wireless station at the Washington Navy Yard is able to keep up business. Hugo Stahl, the sixteen-year-old son of a policeman, is something of a wireless prodigy, and from his home, near the navy yard, communicates through the air with his friend, Harry Loveless, who lives about two miles away. After their knowledge and skill with wireless telegraphy had passed the experimental stage, their aerial activity came to the notice of the navy yard wireless station in a most pointed fashion. Official messages from Annapolis, from Hampton Roads, from war ships making up and down the Potomac

were strangely interrupted. The boy's outcrops began to hear strange words—naval terms—which neither had heard before. Wireless interference; no new thing to the navy operators, but certainly it has suffered from electrical machinery in the yard or from its lagging cables. That had been overcome, but a new trouble had arisen which could not be traced for a long time. The commandant was notified. At length the source of the trouble was located in Stahl's apartment.

According to navy methods, complaint was made through circuit channels, which led finally to the courts of the District of Columbia. A representative of the government called upon the boy. He was shown the wireless outfit and saw how well

it worked, but there is no law to prevent young Stahl from getting at his key and sending electrical waves into the outside atmosphere. Recently when President Roosevelt was coming up the Potomac from Jamestown, young Stahl got messages from the Mayflower which were intended for the navy yard.

The navy department has the matter of this interference under consideration, but it is more or less helpless. The most eminent lawyers have only a hazy idea of the statutory restrictions which should be provided. They do not know how much further wireless telegraphy may be developed. Its commercial value has become so great that its monopolization by the government, except in time of war, is a total impracticability.

## THE COMMITTEE MAY MAKE TRIP TO BROWNSVILLE

Washington, May 23.—The senate committee on military affairs, which is investigating the Brownsville affair, held an executive session to determine whether the committee shall go to Texas to take testimony and personally inquire into the shooting from the Brownsville point of view. No agreement was reached. A majority of the members of the committee argued that testimony taken already proves conclusively that the negro troops did the shooting and that nothing would be gained by taking the trip. Likewise it was intimated by several senators that there was no occasion to call any more witnesses. Senator Foraker took exception to this position and he was supported by the three or four senators who have sided with him in defense of the negroes.

### O'Connor Re-elected.

Dublin, May 23.—T. P. O'Connor, M. P., was re-elected president of the United Irish league of Great Britain, the league having decided to meet in Dublin instead of in England because the members attended the convention of the Nationalist party here.

Thornville, May 23.—(Special to Advocate)—On Wednesday afternoon a test gas well was drilled in on the Cooley Yost farm about 1 1/2 miles west of here with an output of about 2,500,000 feet. The well was drilled in by Mr. Lewton of Utica for the New Perry County Gas company. This being a test well and the result being so satisfactory will cause a big boom in the gas field in this district.

## HEINOUS CRIME WAS COMMITTED BRUTE ESCAPED

New York, May 23.—Amelia Staffeldt, 15, was outraged and murdered on the outskirts of her father's farm in Elmhurst, Long Island. The crime was committed in a lonely spot where the girl had wandered in search of dandelions, and the weapon was the kitchen knife which she had used to sever the crowns from the roots of the wild flowers. The body when found by Joseph Engle, a farm hand, was half stripped of clothing and bore the evidence of revolting assault and the struggle which the girl had made. Two wounds in the throat told how the murder was done. A posse is searching for the murderer. William Staffeldt, father of the girl, is a well-to-do farmer.

## UNION LABEL TO DISTINGUISH FARM PRODUCE

St. Louis, May 23.—The details became known of an organization that has been in process of formation for several months to control the price of farm products. The organization is known as the St. Louis Equity exchange and its leading promoters are Rev. J. T. Tuohy, a priest, George W. Wickline and Owen Miller. Headquarters have been established in Indianapolis and there are unions in fourteen states. It is stated that a union label, to distinguish union farm produce, is to be adopted, and members of labor unions will be asked to purchase only articles so labeled. The farmers, in return, are to purchase only union made goods. The national organization is said to have formed alliances with the Tobacco Growers' association, the Fruit and Produce Dealers' association and the Peanut Growers' association. Ten per cent of the gross receipts of the exchange are to be devoted to educational work.

## PRESBYTERIANS INDORSE WORK OF ANTI-SALOONISTS

EXCITING DEBATE ON TEMPERANCE  
POLICY OF THE  
CHURCH.

AN EFFECTIVE ORGANIZATION

The League is Said to Be—Other  
News of the General Assembly  
at Columbus.

Columbus, May 23.—The Presbyterian general assembly today adopted this declaration on divorce and remarriage: "We approve the recommendation of the inter-church conference that ministers should refuse to marry divorced persons except the innocent party in the case where a divorce has been granted on Scriptural grounds, nor then until assured that a period of one year has elapsed from the date of the decision allowing a divorce. Any minister who performs marriages of divorced persons, forbidden by the church, will be subject to church discipline."

Columbus, O., May 23.—The Presbyterian general assembly, following several hours' debate, adopted without a dissenting vote resolutions declaring as its policy that the permanent committee on temperance shall not embark upon or interfere in political work and endorsing the American Anti-Saloon league as a "safe, sane and effective organization in the advancement of the great cause of temperance," and pledging to it the fullest co-operation "consistent with the constitution of the church."

When the temperance question came up approximately 700 commissioners were in their seats, the gallery was well filled with visitors and the interest of everyone in the fight and out was keyed up to a high pitch. The first part of the report of the standing committee on temperance relating to the overtures for abandonment of the Interchurch Temperance federation was adopted, but the second part deferring the definition of the duties of the permanent committee on temperance raised a storm of protests. Rev. Dr. Semple declared there would be no further delay, that the question at issue would be decided now. Shouts of approval greeted this declaration. At this point Dr. W. O. Thompson, president of the Ohio state university, came forward with the substitute resolution barring the permanent temperance committee from any participation in political affairs and which was subsequently adopted. In reply to questions he said he would not object to an endorsement of the Anti-Saloon league and Rev. Dr. Semple thereupon offered an amendment to Dr. Thompson's substitute resolution endorsing the league. Upon a vote being taken the substitute resolution and amendment to the report of the standing committee on temperance were adopted without a dissenting vote.

Dr. Robert F. Coyle and Dr. William A. Hunter of Denver were elected fraternal delegates to the United Presbyterian general assembly in session at Denver, Colo.

Springfield Minister Spoke.  
Sunbury, Pa., May 23.—The forty-third annual convention of the general synod of the Evangelical Lutheran church of the United States convened in Zion Lutheran church. The session was attended by a gathering which taxed the capacity of the church. Rev. David H. Bauslin, D. D., of Springfield, O., president of the synod, delivered the synodical sermon. He dwelt at length on the marvelous advance made by the church in the past two years and urged his hearers to keep up the fight for righteousness with renewed vigor.

Baptists Against Union.  
Norfolk Va., May 23.—While no resolution of any nature was adopted at the first day's session of the North American Baptist convention, held at the Jamestown exposition, from the addresses made by members of all three organizations within the association, a strong sentiment is revealed against a religious consolidation of the southern, northern and national conventions, the latter being the negro church but a general consolidation for concerted work is favored.

Jog cholera has again made its appearance in our community on the farm of J. Phillip Smith. Despite the great care he has always exercised with his hogs, this destructive disease broke out among them presumably because of diseased stock being driven along the road. His loss is heavy and his many friends sympathize with him.

Phineas Headlee, an old citizen of our community, but recently of Newark, sustained a very painful injury recently while at work in a planing mill. His hand was struck by a flying board and badly mangled. While disabled he has been visiting his family and friends of the village.

The Licking County Woman's Christian Temperance Union held an institute at the Baptist church last Friday. It was well attended and proved interesting and profitable to all. Come again, ladies. You do us good.

Kirkersville homes are open for the entertainment of the delegates to the Licking Co. Sunday School convention which opens Friday morning, May 21, at 9 o'clock. Secretary Dixon is already on the field and has an excellent program prepared and all are expecting a good convention.

Scamen Strike. Hamburg, May 23.—The strike declared here by the German scamen's union is without public sympathy, because of the suddenness of the decision, which was taken without awaiting the result of the demand upon the Shipowners' association May 20 for an increase from 10 cents to 12½ cents per hour for overtime work.

The shipowners answered the ultimatum, calling attention to the breach of good faith involved, but nevertheless expressing willingness to negotiate with a properly accredited committee of actual seamen, indicating a refusal to treat with the present officials of the union, who are not seamen.

From Newark, O., to Franklin, Pa., is not very far, still the latter place doubtlessly is without the attractive points which this city possesses. Miss Grace Davis, Fourth and Church streets, and Miss Helen Harris, who recently left here for that place, intending to spend the summer there, returned home yesterday, thoroughly dissatisfied with Franklin, and doubly determined to stand by old Newark to the end.

Since then Miss Foss, herself, has spent a year in Germany, perfecting herself in the German language, and has acquired the ability to both speak and think in the German language, a quality that every teacher of a foreign language should possess.

Miss Foss is well qualified to teach German. A few years ago, when Miss Anna Wotring, teacher of German in the Newark High school, was absent in Germany, performing herself in the German language, Miss Foss took her place for one year and filled the position with great satisfaction to all concerned. Since then Miss Foss, herself, has spent a year in Germany, perfecting herself in the German language, and has acquired the ability to both speak and think in the German language, a quality that every teacher of a foreign language should possess.

### IRON TRADE REVIEW

Cleveland, May 23.—The Iron and Trade Review today says:

The Amalgamated Association of Iron and Steel Workers has decided to demand advances on nearly all kinds of work done by its members. These demands will be submitted to a conference of employers and employees. The backbone of the strike of employees of lake shipyards has been broken.

In finished lines new business is not uniformly of large volume, but specifications are extremely heavy. About 70,000 tons of steel rails were ordered last week in the Chicago district, and about 12,000 in Pittsburgh. Implement manufacturers have been prominent in the market, contracting for steel bars at full rates for the year's requirements. Other buyers of steel bars have also placed orders freely, but bar iron continues to show weakness. Another advance in merchant pipe is expected, but has not been announced. Although large tonnages of structural steel are pending, particularly in Chicago and in the east, mills, as a rule, are not so well supplied with orders for shapes as for other finished products, and deliveries can be made with comparative ease. The demand for wire products continues very active and the pressure upon deliveries is strong.

There is continued weakness in coke, especially for spot delivery, as production has been in excess of demand. The low prices of spot had a tendency to discourage contracting and very little business is being done in either foundry or furnace trade. The old material market shows indications of improvement in some centers, but there is still considerable irregularity.

### SOUR STOMACH? BAD BREATH?

WHY? Bowel Nerves weakened, cause constipation; you keep on eating and drinking—stomach and bowels overloaded. Liver tries to do the work of three and fails. Then the lungs try to do the work of three pair and fail. The air taken into the lungs is for the purpose of purifying the blood as it passes through the lungs. The blood becomes so foul and impure that the very air from the lungs is defiled by its noxious poisons. Blackburn's Castor-Oil-Pills will quickly cure. All druggists 10c., 25c and 50c. Never sold in bulk.

### SERVICE BOARD MOVES ITS OFFICE

### Science in Selecting Proper Foods

People Are Unhealthy Because They Do Not Eat The Right Food.

In these days of adulterated foods and food products such a food as is known to be pure and wholesome is indeed welcome. We have heard of many breakfast food products and cereals—some broadly advertised as whole products, others as cure-alls for every disease known to man. No doubt they are, all good and pure, and of some merit, but most of them are manufactured with some foreign sweetening agent to make them palatable. Among all the breakfast and cereal foods offered the public to-day, we believe we are warranted in saying that Malta-Vita is the only food that is simply and wholly pure grain product and nothing else except a little salt. Malta-Vita is all of the wheat. It has been thoroughly cleaned, steamed, and flattened into the starch, then added to it is barley malt extract made from selected barley, this, acting upon the starch, turns it into a food product and is further purified by physicians and food experts the finest, purest, most healthful sweetening agent known. Then the grain of wheat is rolled out flat into a thin wafer flake and baked in the ovens. It comes to you fresh and pure and sweet—absolutely nothing but a grain product prepared in the cleanest and most wholesome way and turned into the most delicious whole wheat food that can be found. Malta-Vita is sold by all grocers. Now 10 cents.

### Doings of Musicians.

Cleveland, O., May 23.—Questions of international government occupied the attention of the American Federation of Musicians in convention here. The nomination of officers forecasted the reelection of President Joseph N. Weber of Cincinnati, O., and nearly all the members of the executive board. A resolution to change from annual to biennial sessions was defeated after a long debate.

Train Thrown Into Ditch.  
Cincinnati, O., May 23.—Two persons were dangerously injured and twenty others slightly hurt when the Chesapeake and Ohio flyer was wrecked at Lawrence Creek, the sleeper being thrown into the ditch by the buckling of the track under it. Dead: Mrs. Mary Halsey, Milwaukee. Dangerously injured: Ironton Kelley, Ashland, Ky.; Mrs. Van Rigo, Pikeville, Ky. Among the slightly injured are Mrs. James Gerwin, George Sterns, D. P. Davis and A. Renefeldt, all of Cincinnati, and D. Frank of Portsmouth, O.

Cincinnati, O., May 23.—Because the hotel proprietors of Detroit set too high a price for meals and rooms to suit the judgment of the United States circuit court of appeals, the latter have changed their minds about opening court in Detroit on June 3 instead of in Cincinnati, and it is announced that the session of the court will be held here as usual.

### IN POLICE COURT.

Bara Putipa, one of our new importations, and who boards at 245 East Railroad street, is said to have been annoying for the past month the wife of Karowitz Novak, who also lives at the same number. About a month ago the husband became desperate about the actions of the man Putipa towards his wife, and started after him with a loaded shotgun to avenge his alleged wrongs, and was restrained with difficulty by bystanders from putting a pound or so of No. 8 shot into the body of Putipa.

The affair came to a head on Wednesday morning, when the husband received a telephone message at the Everett glass works, where he is employed, to come home at once, as the man Putipa was again starting trouble for his happy home, but to stop on the way at Mr. Theodore Simross' bank under the postoffice. His wife met him there and they were advised to swear out a warrant for Putipa on the charge of attempted criminal assault.

Singularly enough Putipa appeared on the square to transact some business and was taken into custody by Chief Sheridan. Putipa was fined \$10 and costs after pleading guilty to disorderly conduct.

Tuck Sprouse, charged by Mrs. Carrie Gibbons with a serious crime, was arraigned before Mayor McCleery Thursday morning and pleaded guilty to a charge of assault and battery and was fined \$25 and costs and sentenced to 30 days in the county jail. The execution of the fine and sentence was suspended by the mayor on condition of good behavior.

As was stated in the Advocate on Wednesday the arrest was made after Mrs. Gibbons positively identified Sprouse as the man who was in her home Friday night. The defendant is a married man, though but 19 years old. His wife is but 17 years old and they have been married for three years.

The girl-wife visited Mayor McCleery's home last night and pleaded with his honor for clemency for her husband. As the girl had no other means of support the mayor suspended sentence.

### Doings of Musicians.

Cleveland, O., May 23.—Questions of international government occupied the attention of the American Federation of Musicians in convention here. The nomination of officers forecasted the reelection of President Joseph N. Weber of Cincinnati, O., and nearly all the members of the executive board. A resolution to change from annual to biennial sessions was defeated after a long debate.

Sharon at Youngstown.  
Akron at New Castle.

Akron, May 23.—After getting Wednesday's game well in hand, the Akron bunch threw it away, and Manager Berryhill's Newark cripples romped under the wire with the locals hopelessly distanced.

Cecil Armstrong had been detailed as official finger on the occasion, and Cecil pitched great ball until the sixth, holding Newark to four little hits. Then he issued a couple of passes, and Havel connected for a single, and East beckoned Eddie Kusel from the bench. Before Eddie could stop the slaughter, the visitors had scored four runs. But even then it looked as though Akron, with seven big runs looming up on the scoreboard, had the game cinched.

The climax came in the eighth, when, after Kusel had walked Gygil and hit Winters, Smith slammed a triple against the right field fence. Kusel was derelicted before any more damage could be done, and a gent named Cooper who was shoved in by the Akron manager was easy picking for the Newark batsmen, and they proceeded to scow up the game right there. Snyder tripled, Wratten singled, and Schweitzer doubled as a starter, and these safe swipes, mingled with Cooper's wildness, gave Berryhill's outfit six runs.

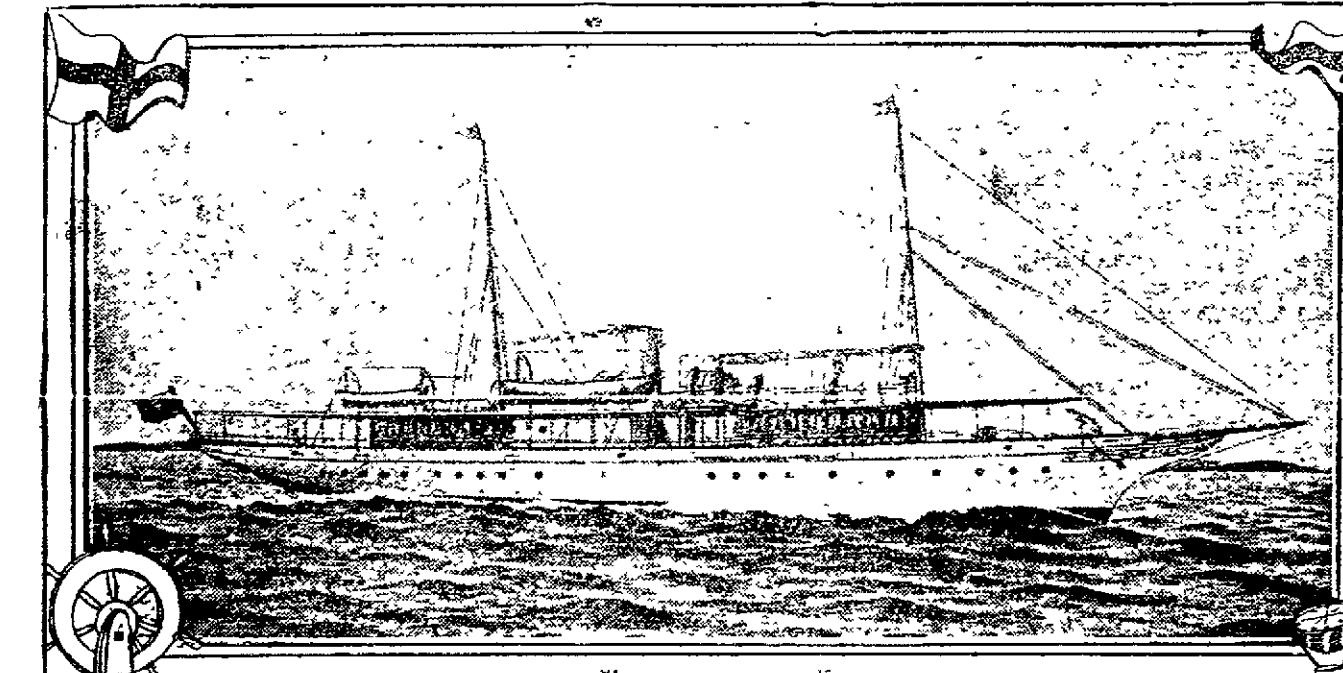

"But" Ehman batted for Cooper in the ninth, and opened the inning with a long triple, which nearly knocked a plank off the fence. But "But" got no further than third.

It was a bad day for Caffyn, whose hitting of late has been terrific. But was up five times, and secured but one hit. That was a feeble pop over third which Wratten almost got his fingers upon. Asher was pitching ball all the time, and he deserved to win. The score:

## BUILT AT MORRIS HEIGHTS FOR DETROIT YACHTSMAN.

NEW YORK, May 23.—Colonel Frank J. Hecker of Detroit, within three weeks or so will receive the handsome steam yacht, the Halcyon, built to his order, and now approaching completion. The Halcyon is 140 feet over all, 118 feet on the water line, and 7 feet draft. She is of steel and in every detail has been built in the very best manner.

# MANSFIELD MAY STRENGTHEN UP BEFORE SELLING

MAVEY IS ENGINEERING SEVERAL TRADES WHICH WILL HELP TEAM.

Hot Stuff Dipped From the Dope Pot Over the O. P. Baseball Circuit.

A Lancaster paper has the nerve to say that Newark has given a lobogian. The writer states that Newark has resumed her regular position in second division which, he remarks, is good enough for a team that is whipped before it goes on the field. That Lancaster man has evidently lost sight of the fact that the Links and Molders are neck and neck with Akron for the leadership of the second division, and if Newark wins this afternoon and Lancaster loses, we will lead the second division.

A big shake up in the Mansfield line of battle seems imminent. Manager McVee has several trades framed up and it is possible that he will strengthen enough to start up the ladder.

In yesterday's game Ehman batted for Cooper in the ninth and slammed a triple to the fence, but that was a far as he got.

The Akron fans have formed a pool opinion of Sandy Murray right from the start, because he butted into several arguments in Tuesday's game. Murray was on the bench in citizen clothes, and a cop led him off the grounds for his talk.

Ive Wratten is certainly playing some baseball on this trip. If he keeps up his present record he will come back with a batting average a big as a house.

Mr. Smith is proving a valuable man to have with the team. His hitting has been the feature for several days.

Supposing the Molders had released Smith and one pitcher as was suggested a week ago. We would be in mighty poor shape just now would we not?

Bunny Pearce is surely playing a nice game behind the bat. His hitting does not look much like that average printed in the dope books. He looks good from here.

Manager Berryhill surely has his troubles these days. The Newark team now looks about like the Naps looked this time last year, and as our friend "Dink" Leonard would say, "They are all shot to—"

Pitcher Nejeau, an Indian, signed by Jimmy Breen at Lancaster, has reported and will get himself in condition for the game there. It is possible that he will be worked in the Decoration Day game here.

Mansfield fans surely have reasons to be discouraged. It is hardly to be wondered at that they are hunting for a place to sell the franchise.

Youngstown is playing in luck. In one game against Newark her five runs came all in one inning.

Newark goes to Marion tomorrow for a three game series. The Lime Burners will wear their new uniforms in this game. Wilhelm will probably oppose Newark.

Dick Nallin made a funny catch of Schweitzer's long fly to center in the first inning. The big fellow slipped on the wet grass and went down, but he was up in a moment and speared the ball with one hand as it descended.

It rained right up to 3 o'clock, but the grounds were in fairly good condition for the game.

East didn't call up Berryhill at the hotel to inform him that the game

would be played until 2:20. As a consequence, the Newark players had practically no practice before the game.

"I guess he thought that he was sneaking one on me," said Bob after the game. "But I crossed him."

The hundred or so fans who turned out rooted strenuously until that awful eighth inning.

This man Cooper is an awkward appearing chap who claims to have pitched in the Texas league and Western association. He's about six and a half feet tall and six inches in diameter.

Winters made a double play unassisted in the sixth, when he grabbed the pop which Ortleib put up in his attempt to sacrifice and beat Nebinger back to the sack. Nebinger was half way to second when "Doggie" hit the ball.

Berryhill is of the opinion that Cuppie Steinberg is the rankest thing in this line he has ever seen.

## "Y" ATHLETIC PARK

The Athletic Park on Eleventh street, managed by the Y. M. C. A., is proving a valuable factor in providing a play ground and clean sports for the boys of the community.

The Grammar School Boys' Baseball League games, begun last Friday, attract hundreds of the school children. Every Grammar school in the city is represented with a team and they are doing much to holding the boys to clean sport and fair play in their recreation. Physical Director Ludwig has charge of the games and uses his influence to hold the boys to clean language and play.

Improvements on the tennis courts are about completed and they will be ready for use the first of next week. There seems to be an increased interest in tennis this year and it is expected that a large number will get into the game this summer. The association owns two fine courts at the park. Tennis tournaments will be run again this year and a Novice club will be organized to teach the rudiments of the game to those desiring to learn this great summer sport. These will club together in the purchase of racquets and balls.

A special membership in the Association is being offered good until October 1st, including bath, locker and athletic park privileges.

The organization of a Golf club has also been suggested and may be arranged for it sufficient interest is shown. Full particulars of the summer work can be obtained by calling at the Y. M. C. A. office.

Lee Clark, the cashier, in the misapplication of funds, who subsequently committed suicide.

# DAY'S BUSINESS IN COURT HOUSE

## Suit For Divorce.

Mabel Kern, by her attorney J. R. Fitzgibbon, has commenced suit in the Probate court for divorce from her husband, Robert C. Kern. Plaintiff says her husband has been guilty of gross violation of his marital duties in that he has been guilty of extreme cruelty towards her. She says that on the 10th of November, 1906, he jerked and grabbed her, straining one of the muscles of her arm and otherwise injuring her, and that he has threatened to kill her, that he has humiliated and disgraced her in that he was arrested in Columbus for stealing rugs, for which he served a term in the Columbus workhouse, and that he is now in the county jail awaiting trial on an indictment charging him with forgery, and that he has stolen personal effects and property from plaintiff aunt and from plaintiff's parents, and that he has stolen and pawned the plaintiff's watch and ten spoons and other articles owned by the plaintiff. She also charges her husband with gross neglect of duty in that he has failed to provide her with the necessities of life since her marriage to him, and that in consequence she has been dependent upon her parents for support and for the support of her child. She asks for a decree of divorce from the defendant, the custody of the child, and for all other relief to which in equity she may be entitled.

## Breach of Contract.

Transcript from the docket of E. J. Dorsey, a justice of the peace of Graubville township, in the case of Elmer Sutton vs. John Montgomery was today filed in the Common Pleas court. This case comes by appeal from the judgment of Squire Dorsey, and is brought by the plaintiff to recover damages from the defendant, John Montgomery in the sum of \$100 for the alleged breach of contract for the sale of a quantity of hay which the plaintiff claims the defendant refused to deliver according to the terms of a contract. The market value of the hay having increased to the amount of \$100 above the contract price, the plaintiff claims that he is entitled to recover that amount by way of damages because of the refusal of the defendant to deliver it. Smyth & Smyth; Kibler & Montgomery, attorneys.

## In Common Pleas.

In the case of A. Z. Johnson vs. Gilbert Thornberg, the jurors returned a verdict for plaintiff for \$241. The action was brought for the alienation of the affections of the wife of the plaintiff by defendant. The defendant has married and is living with the former wife of the plaintiff.

The case of Chas. Follett vs. City of Newark, is on trial to the court, a jury having been waived by consent. Plaintiff says that he is the owner of and seized in fee simple of a lot at the corner of Elmwood avenue and Locust streets, this city; that the defendant, in the improvement of the street by paving, etc., some years ago, took and appropriated a portion of his lot. He asks for the recovery of the portion taken, or, if this cannot be done, then he asks for the value of the land wrongfully and illegally appropriated from him. Follett & Follett; Bolton, Flory & Flory.

When the back begins to ache.

Don't wait until backache becomes chronic;

Till serious kidney troubles develop;

Till urinary troubles destroy night's rest.

Profit by a Newark citizen's experience.

G. W. Harter, living at Thornville, R. F. D., No. 5, well known in Newark, O., says: "For several years I suffered with a complication of kidney, rheumatism and urinary troubles, and physicians could not help me. In spite of all the medicines I used I grew continually worse. My back became so weak I could scarcely get about and there was a constant dull heavy aching in the small of the back, varied with occasional sharp shooting twinges like knife thrusts that almost paralyzed me."

Expected that I would never be able to get rid of the trouble but in talking about my case with Mr. Crayton, the Newark druggist, he advised me to try Doan's Kidney Pills, saying he had known of many of his customers who had used Doan's Kidney Pills for the same troubles and had found great relief. I got a box from him, went home and began using them. To make a long story short, they cured me and the cure has been a permanent one. I have had no more backache, my back is strong, the kidney secretions are regular and normal, and I attribute my present good health to the use of Doan's Kidney Pills."

## A RARE TREAT

Newark to Hear Fifty Trained Players in a Fine Program This Evening.

Mr. Judson has exercised special care in his choice of program for the orchestral concert tonight, and announces the following program. The first number will be the overture to Phedre by Massenet, the French composer and is a brilliant composition of the modern school now so popular abroad. Then will come two short numbers, an Album Leaf by Wagner that will appeal to all, and two dainty Norwegian dances by Grieg the living Norwegian composer. Then will come the Unfinished Symphony of Schubert, the completion of which was interrupted by his death, and which is rightly termed his Swan Song. It has melodies that haunt one for days and is a favorite because of its beauty and brevity. The last orchestral number will be the great march from the opera of Tannhauser and will immediately follow the ballet music from Guonod's opera of Faust. Many of us have seen the play of Faust, and will be interested in hearing the music which it inspired the French composer to write. Mrs. Elizabeth Wilson has consented to sing again this evening, and will again please the host of admirers she made by her singing last night. The orchestral concert was the most heavily attended concert last year, and will only be second to the Schumann-Heink concert this year. This is a great opportunity for all to hear one of the most interesting forms of music at a very low price and all should take advantage of it. The prices are 50 cents, 75 cents, \$1 and \$1.50 and there are still some good seats left. Those who miss this concert will be missing what promises to be the best orchestral concert ever given in Newark as the program is more popular and more interesting than ever before.

Three Jurors in Schmitz Trial. San Francisco, May 23.—Three of the first 12 probationary jurors for the trial of Mayor Schmitz on the charge of extorting money from local French restaurateurs with the connivance and help of Abraham Ruef, have been chosen. The list of the remaining tabernacle being practically exhausted, Judge Dunne issued a new venire of 20. The scene of trial was removed to the Bush street synagogue. Telegraph and telephone wires have been run into the building and some of the newspaper reports of the trial will be sent direct from the vestry room, which has been set aside for the use of Judge Dunne as chambers. It is thought that the trial will last about six weeks.

## ACTION IS TAKEN BY WOODMEN

Which Will Prevent a Number of Craftsmen From Joining the Order.

According to the decision of the Sovereign Camp, Woodmen of the World, all bartenders, stone crushers and miners are no longer eligible to membership in that organization. Wednesday Sovereign Camp in biennial convention at Norfolk so decided. The camp is considering the eligibility of other craftsmen whose work is hazardous.

The Woodmen being more of an insurance organization than a fraternal one came to this decision in order the better to protect themselves from all hazardous risks.

The Woodmen's Circle, the women's auxiliary, meeting in conjunction with the Sovereign Camp, in changing the laws decided that hereafter investments shall be made in governmental and municipal bonds only.
